DECREES

Article 1

Announcement of the selection procedure

The public selection procedure for n. 1 position of research contract, pursuant to art. 22 of the Law 240/2010 and the current University Regulations on the subject, is launched as specified in Annex A.

Article 2

Requirements for admission to the selection

The selection process is open to Italian and foreign candidates holding a PhD or equivalent qualification obtained abroad, or, for the relevant fields, a medical specialization qualification.

Candidates who, as of the application deadline, are enrolled in the final year of a PhD or medical specialization program, provided that they are expected to graduate within six months of the date of publication of the call for applications on the University's official noticeboard, are also eligible to participate.

For qualifications obtained abroad, the candidate can request from the University of Bergamo the equalization of the educational path and the release of the final parchment through the instructions published at the following link:

<https://www.unibg.it/ricerca/lavoro-ricerca/dottorati-ricerca/iscriversi-dottorato>

The University of Bergamo can proceed with the recognition of doctoral qualifications if there is relevance to those active at the University; for other doctoral qualifications offered by Italian universities, consult the list at the following link:

<https://cercauniversita.mur.gov.it/php5/dottorati/cerca.php>

For qualifications obtained abroad, the candidate is required:

- in the case of qualifications **already recognized as valid in Italy**, to attach to the application for participation, **under penalty of exclusion**, the equivalence/equivalence measure issued by the competent authorities.
- in the case of **qualifications not yet recognized**, to attach to the application, **under penalty of exclusion**, one of the following documents:
 - copy of the receipt of delivery of the request for recognition at an Italian university of the qualification obtained abroad;
 - copy of the request for the "Certificate of Comparability" issued by CIMEA (Centro Informazioni Mobilità Equivalenze Accademiche).

The candidate, in possession of a foreign qualification not yet recognised, is admitted to the selection with reservations.

The Administration may, at any time, issue a reasoned decision to exclude a candidate due to a lack of the required qualifications, failure to obtain the qualification, or failure to complete the non-academic recognition procedure for the foreign qualification.

Also required:

- **enjoyment of civil and political rights;**
- **absence of criminal convictions or ongoing criminal proceedings which could prevent, pursuant to current legislation, the establishment of the collaboration relationship.**

The candidate, with the following situations, cannot participate in the selections:

- permanent staff, hired on a permanent basis, of universities, public research bodies and institutions whose scientific specialization diploma has been recognized as equivalent to the title of research doctor pursuant to article 74, fourth paragraph, of the decree of the President of the Republic of 11 July 1980, n. 382;
- those who have benefited from fixed-term researcher contracts pursuant to article 24 of Law 240 of 2010, as amended by the Legislative Decree. 36/2022 converted with Law 79/2022;
- those who have a family or affinity relationship up to and including the 4th degree with a professor belonging to the Department who proposed the activation of the contract, or with the Chancellor, the General Director or a member of the Board.

Exclusion from the selection procedure is arranged, at any time, with a reasoned decree of the Rector or his delegate and notified to the interested party.

The requirements for admission to the selection must be met on the deadline for submitting applications. This Administration guarantees equality and equal opportunities between men and women for access to work and treatment at work.

Article 3

Exclusion from the procedure

The following reasons are grounds for exclusion:

- failure to sign the participation application;
- failure to meet the admission requirements set out in the art. 2;
- failure to comply with the procedures for submitting the application for participation referred to in the following art. 4.
- failure to submit the project proposal.

In the event that a supplementary investigation is necessary, candidates must regularize their application within the peremptorily assigned deadlines.

Article 4

Methods and deadlines for submitting the application for participation

Applications for admission to the selection process, as well as any qualifications, documents, and publications deemed relevant to the competition, must be submitted **electronically, under penalty of exclusion**, using the dedicated IT application on the following page:

<https://pica.cineca.it/unibg/>

Candidates may register for and access the platform using the Public Digital Identity System (SPID – security level 2) or CIE or credentials issued directly by the PICA platform.

A maximum number of publications may be attached, as specified in Annex A.

The system allows applications to be saved as drafts prior to the submission deadline. The date of electronic submission of the expression of interest is certified by the IT system via a receipt automatically sent by email. Once the submission deadline has passed, the system will no longer allow access to or submission of the electronic form.

Each application will be assigned an identification number which, together with the competition code indicated in the application system, must be cited in all subsequent communications.

The application process—including electronic submission—**must be completed no later than 12:00 PM (Italian time) on the thirtieth day following the publication of the call** for applications on the University website. Should this deadline fall on a public holiday, it shall be postponed to 12:00 PM (Italian time) on the next working day.

The submission of the application must be finalized and completed in accordance with the following

procedures:

- **by handwritten signature:** to sign the document, it is necessary to download the system-generated PDF file to your computer, print it, affix a handwritten signature to the last page, scan the entire document as a PDF, and upload the resulting file to the system, while also attaching a valid identity document;
- **by digital signature:** the document may be digitally signed using a signing device (smart card, USB token, or other recognized qualified signature solution) and subsequently uploaded to the system;
- **using a remote digital signature/CNS:** to digitally sign the document, it is necessary to download the application in PDF format, apply the remote digital signature—generating a file with the .p7m extension (or another format specified by the certification authority)—and upload the signed file to the system;
- **via SPID or CIE:** where the procedure allows for this, no further signature on the application is required, as the digital identification performed during the login process is considered valid for the submission of the request.

The application must contain all data required by the online procedure and must be signed in accordance with the methods indicated above; failure to do so will result in exclusion.

Once the evaluation has been completed, the Commission collectively expresses a reasoned overall opinion and related score for each candidate.
