Glossary

Recipient (beneficiario): A student who meets the merit and income requirements, thus winning the scholarship .

CFU: University credits. Partial exams and out of study plan exams do not contribute to the count of credits.

Eligible non-recipient (idoneo): A student who meets the merit and income requirements but does not win the scholarship due to a lack of funds

First absolute enrolment: Any enrolment in any undergraduate course (even different from the one attended in the 2026/2027 academic year) in any Italian or foreign university, independent of the outcome of the prior educational path (halting studies, transfer, graduation, etc.). The number of credits required is always calculated with reference to the year of first enrollment. The first-year enrollment principle applies, for example, to all cases of enrollment at the University of Bergamo after withdrawing from studies, transferring, or following a change of school or program of study. The first-year enrollment principle does not apply to students from foreign school systems that require a total of eleven years of study, in cases where, for admission to European universities, completion of an additional year of university studies is required.

Bonus credits: Number of credits that the student may use in addition to those effectively earned to meet the minimum merit requirements of the announcement (see Point 3.1.3)

- Bonus credits **will be automatically added** by the system while calculating the rankings, therefore students only need submit the online application indicating the exams they passed and the bonus credits used in the previous years.
- The bonus accrues only during the three-year bachelor's and five-year master's degrees (up to the third year);
- For students enrolled in the first years of three-year bachelor's or five-year master's courses, the bonus may be used to maintain the first instalment and for the balance of the scholarship (confirmation of merit);
- Any unused bonus increased by 15 CFU or the residual amount of the activated bonus not used in the three-year bachelor's degree may be used by students registered in graduate courses **starting in year two of enrolment** (second part of the first year for students enrolled part time);
- In the online application, students from other Italian universities must declare that they have never used the bonus, or indicate the amount of bonus used in previous academic years. The self-certification methods will be reported in the instructions for completing the application.

3.1.4. Postgraduate and PhD Courses

COURSE	RIGHT TO PARTICIPATE
Postgraduate and PhD courses (excluding recipients of scholarships pursuant to Italian Ministerial Decree 30.04.99, no. 224 and research grants pursuant to Italian Law 27/12/1997, no. 449)	Be admitted to the course

3.2. ECONOMIC REQUIREMENTS

Equivalent Economic Status Index and Property Status Index ISEE – ISP/EQUIVALENCE SCALE

Students requesting right to study benefits must have:

- a University Equivalent Economic Status Index (**ISEEU**) **not higher than € 26.887,93**;
- an Equivalent Property Status Index (**ISPE**) given by the property status divided by the equivalence scale **not higher than € 58.452,06**. The ISPE will be calculated by the university based on data provided by INPS (Italian social security service).

Proof of the economic situation established above for the purposes of this announcement must be provided by presenting an ISEE or 'ISEEU parificato' signed **in the 2026 calendar year before 5 October 2026** (deadline for submitting the application for participation in this announcement).

Before submitting a request for ISEE certification, please see the relative [Guide prepared by the Tax Office](#).

Students whose family unit has a gross income for the purposes of the ISEEU lower than € 9,000.00 may be asked to show additional documentation regarding their means of support.

Family unit

The family unit is defined according to Italian Prime Ministerial Decree no. 159/2013 **with reference to the date the application is submitted.**

Independent student

If the student is a separate family unit from the immediate family, the student may be considered independent only if the two conditions below are met:

- residence outside the housing unit of the immediate family for at least two years before the ISEEU documents are submitted, in housing not owned by a member of the immediate family;
- at least two years of legally declared income from occupation as an employee or the like, not employed by family members within the third degree of kinship, for no less than **€ 9,000.00**.

If **both** of the above-mentioned conditions are not met – and duly documented – the property and economic situation of the immediate family will be considered.

Independent students meeting the requirements above who have taken paid accommodation (rental contract) may be considered 'out-of-town' if they present the documentation listed in Section 4.2.1 to the Service.

Students enrolled in PhD courses

Students enrolled in PhD courses may present an ISEE as an independent student, even if the above-mentioned requirements are not met. The student's family unit consists exclusively of the applicant, spouse and children.

Nevertheless, the applicant can still declare the family unit according to the ordinary rules (including other people present in the family status).

Political refugees

Students who have been recognized with political refugee status only need an ISEE certificate relating to any income/property in Italy.

However, they must declare their status by uploading the copy of the political refugee status on the [Diritto allo studio website](#), Upload documents Section > Documentazione comprovante lo status di rifugiato politico.

3.2.1. Students with income earned in Italy

The economic situation is determined on the basis of the University Equivalent Economic Status Index (ISEEU). Students may request it independently through the INPS online portal or through a tax assistance centre authorized by INPS **by the date this competition announcement expires.**

The request must refer to '**Prestazioni agevolate per il diritto allo studio universitario**'. For students enrolled in PhD courses, the statement *ISEE for PHD courses* is also acceptable.

ISEEU with OMISSIONS/DIFFERENCES will not be accepted. Students must correct them strictly by 31/12/2026 and send the correct ISEEU to Diritto allo studio within the deadline indicated in the provisional ranking notice. Otherwise, they will lose the scholarship.

The data contained in the ISEE certificate will be acquired by the university directly from INPS.

Current ISEE

A current ISEE may be requested when a valid ordinary ISEE is already held but a change occurs in the employment status or there is an interruption in social security, assistance, and benefits occurs that does not fall within the total income (declared for tax purposes) for one or more members of the family unit; or when there is a decrease in the overall income capacity of the family greater than 25%.

3.2.2. Students with income earned abroad

The economic and property situation of the family unit for foreign students or Italian students residing abroad or Italian residents with a family unit and income produced abroad must be certified with the appropriate documentation issued by the relevant authorities in the country where the income is

produced and **must be translated into Italian and legalized by the Italian diplomatic authorities in that territory.**

For income and property earned or held abroad in countries outside the eurozone, the valuation will be made based on the average exchange rate in 2025.

In countries where it is particularly difficult to obtain certification confirmed by the local Italian embassy, the certificate may be issued by the relevant diplomatic representative or foreign consulate in Italy and legalized by the Prefecture.

For foreign students from the following '**Particularly poor and developing countries**', as defined in Ministry for Universities and Research Decree no. 176 of 24 February 2026:

Afghanistan, Angola, Bangladesh, Benin, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic People's Republic of Korea, Democratic Republic of the Congo, Djibouti, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Lao People's Democratic Republic, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Myanmar, Nepal, Niger, Rwanda, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Sudan, Syrian Arab Republic, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Yemen, Zambia.

The economic situation is assessed based on a **certificate from the Italian delegation in the country of origin, or from the diplomatic authorities of the country of origin present in Italy, stating that the student does not belong to a family with a notoriously high income and elevated social level.** This certificate may also be issued by the foreign university of enrolment supported by agreements or conventions with this university or on behalf of Italian entities qualified to provide a guarantee of economic coverage pursuant to current regulations in matters of enrolling foreign students in Italian universities. In the latter case, the certifying body must commit to return the scholarship on behalf of the student if it is revoked.

Applicants with **international/subsidiary/temporary protection** and coming from countries affected by emergencies resulting from **ongoing war events** who are in situations of proven economic hardship are exempt from submitting declarations issued by diplomatic authorities and can therefore self-certify data on the family unit's income and assets abroad.

In any case, the income earned abroad and declared by foreign students cannot be less than the minimum amount defined at national level corresponding to the minimum means of subsistence that must be proven for the purposes of requesting an entry visa to Italy for study purposes (**€ 10.179,85**).

The student must nevertheless declare any income and property held in Italy by the family unit.

Students with income earned abroad must request the issuing of the ISEEU PARIFICATO certificate by submitting the following original documentation translated by the Italian consulate in the country of origin to the **CAF CISL based in via Carnovali 88/A – Bergamo**:

- statement on the composition of the foreign family unit;
- income of each family member for calendar year 2025; the document must clearly state that the incomes refer to calendar year 2025. If one or more members of the family unit 18 years of age or older did not earn income in 2025, the student must present a declaration to that effect;
- buildings owned by the family as of 31 December 2025 for use as housing with an indication of the floor area; the document must be issued by the relevant authorities. If no such buildings were owned in 2025, a certificate attesting to the absence of buildings owned by each family member 18 years of age or older must be produced;
- a certificate of the property owned by members of the family unit as of 31 December 2025 (**bank accounts**, stocks, dividends, shareholdings, fractions of net property of any companies owned, etc.);

and also:

- any documentation relating to income and property (e.g. bank accounts) produced in Italy;
- any declaration relating to the amounts of scholarships received in calendar year 2025;

- matriculation number, only for students enrolled in the University of Bergamo;
- tax ID (students who still do not have it must send it to the tax assistance centre as soon as they have it).

The applicant's economic and property situation will be evaluated according to current regulations on determining the ISEE, with particular reference to the provisions of the regulation implemented with Italian Prime Ministerial Decree 159/2013.

The deadline for submitting complete documentation for the issuance of the Equivalent ISEEU is:

- September 3, 2026 for those applying for a scholarship and scholarship-covered housing;
- October 5, 2026 for those applying for a scholarship only and related supplements and additions.

Data relating to the 'ISEEU parificato' will be transmitted by the CAF OFFICE to the University.

6. RANKING PROCEDURES

The rankings are produced following the general criteria specified below:

6.1. STUDENTS ENROLLED IN THE FIRST YEAR OF ALL COURSES OF STUDY

The ranking is made on the basis of the ISEE value of the applicant for a maximum of 1000 points assigned using the following formula:

$$\left\{ 1 - \frac{\text{Student ISEE}}{26,887.93} \right\} \times 1000$$

The ranking is determined by the assigned score, listed in decreasing order. For equal scores, students enrolled in higher-level courses prevail. In the event of further parity, the mark for the degree prevails, followed by the youngest age.

6.2. STUDENTS ENROLLED IN YEAR TWO OR LATER OF ALL COURSES OF STUDY

The ranking is listed in decreasing order as determined by the overall score relating to the number of CFU earned by **10 August 2026** and the score determined by the average mark on the exams. A total of 1000 possible points are distributed thus: 600 based on the number of earned CFU and 400 based on the average score of exams passed.

For equal merit scores, students who have not used the bonus rank higher, followed by students with higher income scores. For further parity, students enrolled in a later year of the course, followed by younger students.

Means of calculating the merit score

- The score relating to the **CFU** earned by **10 August 2026** is calculated using the following formula, which considers an expected average of 60 CFU for each year in the course (30 CFU for those enrolled part time):

Student CFU= credits achieved by the student by 10 August 2026 considered for scholarship purposes;

Minimum CFU= credits required by the competition notice for the academic year for which the scholarship is being requested;

Maximum CFU= maximum number of credits that the student can have achieved, obtained by adding 60 CFU for each complete year of course (30 for part-time students);

Full time:

$$(student\ CFU - minimum\ CFU) \times \frac{600}{(maximum\ CFU - minimum\ CFU)}$$

Part time:

$$\{(student\ CFU - minimum\ CFU) \times \frac{300}{(maximum\ CFU - minimum\ CFU)}\} \times 2$$

If the bonus is used, the score relating to CFU is equal to zero.

- The score related to the **average** mark on the exams is calculated using the following formula:

$$(average\ student\ mark - 18) \times \frac{400}{(30 - 18)}$$

7. PUBLICATION OF RANKINGS AND POSSIBLE REQUESTS FOR REVIEWS

The rankings will be published on the [DIRITTO ALLO STUDIO WEBSITE](#) AND APPLICANTS CAN CHECK THE RESULTS by accessing 'Esito graduatorie' with their credentials **by**:

(Gross scholarship amount /2) – canteen and accommodation cost for the whole a.y.

For example, a long-distance student, hosted in the residences, in the first income bracket, will receive € 496.00 as first instalment calculated this way:

$$(8,248/2) - 829 - 2,799 = 496$$

And, as final instalment € 4,124 so that the sum of the two instalments is equal to the money amount of € 4,620.00

Subject to the availability of regional funds, the second scholarship payment will be disbursed **starting from October 2027 upon passing the OFA and earning a minimum level of merit** – including the use of a 5-CFU bonus – of **35 CFU (17.5 CFU for part-time students)**, provided that they are earned by **10 August 2027**.

Earning the above-mentioned **35 CFU (17.5 CFU for part-time students)** by **30 November 2027** gives the right only to exemption from 50% of the all-inclusive fee and, if a scholarship recipient (*beneficiario*), to 50% of the scholarship amount.

Note that for the purposes of this announcement, **extra exams or partial exams (modules) not listed in the university record book will not be considered**. Starting October 15, 2027, the office will automatically add the available bonus credits to the disbursement of the most favorable amount of money to students. Those wishing to use them for the August 30, 2026 assessment must specifically request it by opening a Ticket to Diritto allo studio.

9. SUPPLEMENTS TO THE SCHOLARSHIPS

9.1. INTERNATIONAL MOBILITY AND INTERNSHIPS IN FOREIGN COUNTRIES

9.1.1. List of benefits and recipients of the integration

Students receiving or eligible for the scholarship for the 2026/2027 academic year may compete for the supplement for international mobility and internships in foreign countries relating to specific calls for applications promoted by the University of Bergamo which must last at least **2 months**.

The contribution in question is granted once to those who have the right to it for each course of study. Students who, pursuant to Article 6 of the Agreement for International Mobility and Internships under the Erasmus Plus Program, fail to comply with the deadlines or terminate the program before its expiration for reasons other than those indicated in Article 13 thereof, are excluded.

The international mobility supplement includes:

- Money contribution equal to maximum **€ 600.00** per month for each month spent abroad, up to a maximum of 10 months;

IMPORTANT: the amount of the supplement for international mobility is reduced by any other contributions granted through Ministerial and European Union funds based on bilateral agreements, even non-EU agreements, and through funds provided by public or private subjects.

- **reimbursement for travel expenses** (up to **€100.00** for EU countries and up to **€500.00** for extra-EU countries)
- **monetary conversion of the food service** for the period spent abroad.

Students applying for mobility are prohibited from accessing university canteens during their mobility period if they temporarily return to Bergamo.

All the amounts and months covered by the benefits mentioned above are **halved** for students receiving the scholarship for the year following the last year of the regular course, with reference to the year of enrolment (first year outside the prescribed time).

The number of supplements for international mobility and internships abroad will depend on the available resources allocated by the Lombardy Region and the Ministry of Universities and Research. They will be paid only if there will be available fundings after the payment of the scholarship to all eligible students and of the increases as mentioned in this call.

If sufficient resources are not available to provide the supplementary grant to all eligible students but only a few, the award will be based on the scores in the scholarship rankings and the number of beneficiaries will be proportional to the number of applicants for each Department.

9.1.2. Application procedure and required documentation

Interested students, even if they are not yet certain of their departure date, must request this supplement by completing the online scholarship application by **5 October 2026**, selecting **"international mobility contribution"** from the required services.

After their departure, and by **30 September 2027**, applicants must upload copies of the tickets for the first outbound and last return journeys to the Diritto allo studio website, in the "Upload Documents" section, in the "Spese di viaggio per integrazione mobilità" field.

9.1.3. Ranking and payments

The scholarship supplement will be awarded based on the income and merit ranking drawn up pursuant to Paragraph 5 above.

The first provisional ranking will be published in the Results section of this Call for Applications by 31 January 2027.

Subsequently, the disbursement of the grant will be subject to verification, certified by the International Programs Office, of actual participation in the exchange program and its duration. This verification will be carried out automatically in October 2027, at the end of the 2026/2027 exchange program.

In December 2027, the final ranking will be published in the Results section of this Call for Applications, and the grants will be disbursed.

Any requests for review must be submitted via Ticket addressed to the Diritto allo studio within 15 days of the publication of the rankings.

9.2. GRADUATION PRIZE

Scholarship recipients (*beneficiari*) of the scholarship for the 2026/2027 academic year who are enrolled in three-year bachelor's degrees, master's degree, and five-year master's degrees will benefit from a scholarship supplement equal to half of the expected amount, net of deductions for the accommodation service and food service, if they earn the degree **within the regular duration of the course**.

This supplement **will be assigned as a matter of course** to those with a right to it at the end of the exam sessions in the 2026/2027 academic year, provided there are sufficient resources. They will be paid only if there will be available fundings after the payment of the scholarship to all eligible students and of the increases and international mobility contributions as mentioned in this call.

If there are not sufficient resources for all those entitled but only a few, a ranking will be drawn up giving priority to those who have obtained a master's or single-cycle master's degree, and based in the second instance on the degree grade.

The postgraduate grant is incompatible with the scholarship for enrolment outside the prescribed time of the academic year 2027/2028: in case of eligibility for 2027/2028 scholarship as student enrolled to the first year outside the prescribed time the student will not receive the postgraduate grant. The grant is not compatible with other graduation prizes.

By 30 June 2028, at the end of all degree sessions for the 2026/2027 academic year, the final ranking of the recipients of the degree award will be published in the Results section of this Call for Applications.

Any requests for review must be submitted via Ticket addressed to Diritto allo studio within 15 days of the ranking's publication.

In such cases, the student has the option to choose one of the funding sources.

However, the scholarship may be combined with the scholarships for mobility abroad.

Students with recognized handicaps pursuant to Article 3, clause 1 of Italian Law no. 104/1992 or with **invalidity equal to or greater than 66%** are exempt from the provisions regarding revocation of the scholarship and payment of the second instalment.

11. TRANSFERS AND DEPARTMENT CHANGES

In the event of a transfer to another university after the start of the academic year and **by request of the interested party**, the submitted scholarship application will be sent to the entity/university where the student has requested the transfer and the student will therefore forfeit the benefits recognized by the University of Bergamo, with the obligation to return any amounts paid.
